FUND FEATURES

- Combines Equity, Debt, and Arbitrage to deliver a balanced and tax efficient investment approach.
- A portion of equity exposure is hedged through arbitrage, helping reduce downside risk during volatile markets.
- The fund derives stability from debt and arbitrage, while unhedged equity provides participation in market upside.
- Aims to generate returns higher than traditional debt funds, with lower volatility than pure equity funds.
- Particularly suited for investors navigating uncertain and volatile market conditions.

EQUITY ALLOCATION

- Net long equity exposure is maintained at around 36.5%, with a strong large cap bias (~72.82%), ensuring stability during periods of market stress.
- Sector positioning remains moderate, aligned with a growth bias and a focus on reasonable risk reward rather than aggressive sector calls.
- **Overweight Financial Services:** Supported by improving system liquidity, stable asset quality, and reasonable valuations, even amid near term volatility.
- **Selective Consumer Discretionary exposure:** Focused on companies gaining market share from the unorganised sector and benefiting from structural consumption trends.
- **Underweight Metals & Mining and IT:** Reflecting global uncertainties, commodity linked volatility, and evolving business dynamics.

FUND MANAGER OUTLOOK

The Sundaram Equity Savings Fund continues to priorities risk management while retaining participation in equity growth opportunities. The current phase is driven by an energy led geopolitical shock, where market volatility is more a function of uncertainty around earnings durability than a breakdown in fundamentals.

In this context, the fund's blend of arbitrage and debt provides stability, while calibrated equity exposure allows participation as markets gradually discount the impact of the disruption. Although near term performance has seen pressure from sectoral headwinds—particularly within financials—the portfolio remains positioned to benefit from improving liquidity conditions, selective consumer themes, and disciplined positioning.

This makes Sundaram Equity Savings Fund a suitable option for investors seeking relatively stable outcomes with measured upside potential over the medium to long term.
