FUND MANAGER UPDATE

- Sundaram Large and Mid Cap balances stability from Large Caps with selective aggression from Mid Caps, leveraging migration opportunities. Its mid cap portion builds on the success of Sundaram Mid Cap.
- The fund has transitioned from slow movement to high growth potential with increasing active bets. Historically, this category has been less volatile than other aggressive segments while generating steady returns. In the last 6 months, this fund has balanced in-vestments between Large and Mid Caps, without bias.
- The fund is allocated to discretionary consumptions, selective bank, financials and private capex-related industrial sectors. It also has a slight overweight in leisure services and a neutral position in IT and underweight in FMCG.
- The portfolio has streamlined its holdings to approximately 70 stocks, thereby enhancing active positions on high-conviction investments.
