FUND MANAGER UPDATE

A Sharper Focus: This fund is built on high conviction, holding a maximum of 30 carefully chosen stocks. By staying concentrated, we aim to make the most of our best ideas rather than spreading them too thin.

Stability with Large Caps: While we look for growth across the market, about 67% of the portfolio is currently in large-cap stocks. This structure is designed to give the fund a solid foundation and manage market swings effectively.

Active Management: Active share ~55%, selectively looking for opportunities that can deliver better returns while keeping a close eye on the balance between risk and reward.

CONVICTION SECTORAL POSITIONING

Overweight (O/W)

Banks & Retailing: We are leaning heavily into these sectors, as they are direct beneficiaries of steady consumer spending and a healthy credit environment.

Auto Components: We see long-term value here as the automotive industry continues to evolve and modernize.

Neutral

Information Technology: We maintain a balanced stance here, waiting for more clarity on global trends before moving further.

Underweight (U/W)

Oil & Gas, FMCG, Metals, Power: We have reduced our exposure in these areas to focus on sectors where we see better immediate potential for growth.

FUND MANAGER OUTLOOK

Export oriented sectors should do well due to trade agreements. More than 20% of portfolio has exposure to exports. Banks are looking attractive with higher credit growth and better asset quality.

Disciplined Growth: The portfolio is designed to be lean and meaningful. By holding just 30 stocks, every selection counts. Our goal is to stand out from the broader market by picking businesses we truly believe in.

Balanced Quality: Even with a focused approach, we don't compromise on quality. The companies in our portfolio show a healthy Return on Equity (ROE) of ~14%, showing they are efficient and well-run.

Valuation Mindfulness: While we are aggressive in our stock selection, we remain sensible about what we pay. The fund's valuation (P/E ratio) is around 17X for FY27, which we believe is a fair price for the quality of businesses we own.
