FUND MANAGER UPDATE

- The Sundaram Small Cap top raked fund during recent volatility which depicts how to manage an aggressive fund. The Sundaram Small Cap fund is valued more attractively than the Small Cap Index and peer average, avoiding overvalued sectors like defence, railways, EMS, and Power. This strategic position allows the Small Cap Fund to perform well during downturns, appealing to investors concerned about market volatility but interested in small-cap investments.
- Consistent stock selection using a bottom-up approach is key to portfolio outperformance, as it adds meaningful value over time.
- The portfolio has incrementally added into few Auto ancillary, plastic recycling and pharma.
- The portfolio includes multi baggers like Safari in luggage, AsterDM in hospital and AdTech major Affle which is again a high growth stock.
- We are overweight in Financials, especially in SFB & NBFCs and IT Services, Auto Component and neutral in Industrial. The fund reduced exposure from FMCG due to high valuations.
